PROFESSIONAL SUMMARY

Motivated Computer Science graduate with hands-on experience in Java, Spring Boot, REST APIs, and relational database design. Passionate about building robust backend microservices.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (2020 - 2024)
National Institute of Technology | CGPA: 8.6 / 10.0

TECHNICAL SKILLS

Programming Languages: Java (Java 17, Core Java, Collections Framework, Multithreading, OOP)
Frameworks & Tools: Spring Boot, Spring MVC, Hibernate, REST APIs, Maven, JUnit, Git
Databases: SQL, MySQL, PostgreSQL, Relational Database Modeling
Concepts: Data Structures & Algorithms, Exception Handling, Object-Oriented Design

PROJECTS

E-Commerce Order Management API | Spring Boot, MySQL, Hibernate, REST APIs
- Engineered 15+ REST endpoints in Spring Boot with transactional consistency and data validation.
- Designed relational database schema in MySQL utilizing Hibernate JPA for optimized query retrieval.
- Implemented custom exception handling and achieved 85%+ test coverage using JUnit 5 and Mockito.

Library Management System | Core Java, Collections Framework, SQL, Git
- Developed desktop and console application applying Object-Oriented Programming (OOP) principles.
- Used Java Collections Framework (ArrayList, HashMap) to manage in-memory book and patron states.

EXPERIENCE

Software Engineering Intern | TechCorp Solutions (Jan 2024 - Jun 2024)
- Built RESTful microservice components using Spring Boot and PostgreSQL, decreasing API latency by 20%.
- Collaborated in an Agile Scrum team using Git for version control and participating in peer code reviews.

CERTIFICATIONS

- Oracle Certified Associate: Java SE Programmer (Oracle, 2023)
- Java Development Course with Spring Boot (freeCodeCamp, 2023)
